THURSDAY, APRIL 25, 1901.

A DAILY THOUGHT.

Every man's task is his life-purpose.—Emerson.

The war in the Philippines has ended again.

The Chinese, like the Boers, are still "retiring."

Senator Eldridge is to be tried in the Tennessee legislature for alleged bribery.

Cuba wants to appear as the Infant Prodigy, but the United States thinks the freak department is already full.

Count Tolstoy is again reported to have been expelled from Russia. He evidently has a press agent who is on to his business.

Venezuela's obvious ingratitude towards the United States indicates that a slight will have, very little effect on such matters.

Prof. Weltner, the magnetic healer, confessed to using the mails to defraud. What he did to the mails is nothing to what he did to the hundreds of suckers who went up against his brazen game.

Several members of the Reichsrath at an important session complimented each other in the gentle terms of "dirty liar" and "perfidious scoundrel," but such language probably sounds better in the native tongue than in English.

Alabama has just voted a convention at which it is intended to amend the constitution so the negroes can be disfranchised, as they have already been in several other states. This disfranchisement business will eventually prove a boomerang.

President McKinley and Secretary Root have decided to increase the regular army to 76,000 men and let it remain at that number, unless subsequent conditions demand an increase. The indications are that no more troops will be needed.

Cardinal Gibbons, who is soon to leave for Rome, has evidenced his love for the United States in a public speech in Washington, in which he said he thanked God we live in a country where religion is free and speech is free. There are lots of other free things in America, but there is no free silver.

Why can't the city council take some steps to beautify Yeiser park before the carnival? It could be made an attractive, orderly place and a credit to Paducah, if the proper interest were only taken in it. Where is the money appropriated for parks in the last tax levy? Has it been "borrowed" to make up a shortage in some other department?

The nickle-in-the-slot machine "living pictures" must be relegated to the "has been's." One of the agents at Chicago was fined \$1,000 and sentenced to one year in prison for sending the pictures into other states, and another agent was sent to jail for twelve months. When Mrs. Nation hears this she will doubtless include slot machines in her category of contraband possessions.

The United States government will show Venezuela that insults to the greatest nation on earth may be resented diplomatically, if not by force of arms. Minister Loomis has returned from Caracas and made his report of the ill treatment he was subjected to at the Venezuelan capital, and had no trouble in showing that it was due to the president's dislike of the United States, and not to any personal prejudice against the minister. The American representation in Venezuela will be cut down to very little as an evidence of this country's disapproval of Venezuela's attitude towards the United States.

The visit of representatives from the Cuban constitutional convention to Washington has provoked a great deal of discussion in the press, but it is generally conceded that the friendly call will not change the situation any, although it may lead the Cubans to a better understanding with the Americans. The position taken by some of the papers that the Cubans should be allowed to learn to govern themselves is quite characteristic of the anti-administration organs, but nevertheless it is not to be feared that the American colonies learned from costly experience is no argument

in favor of allowing the Cubans to do it. The course pursued by the American colonies was one of necessity, and there is no common sense or reason in allowing the inexperienced and likely-to-go-astray Cubans to undergo the trying ordeal of learning to govern themselves when they can have a willing and experienced teacher to show them how, simply because the American patriots had it to do. The United States knows what Cuba needs better than Cuba herself knows, and there is no alternative for the embryo republic. She must submit. If the Cubans really want independence, they can't get a better article than under the protection and teachings of the United States. Gen. Portuondo, one of the Committee now at Washington, is quoted in an interview as saying: "Peace with the Americans without the independence of Cuba is impossible—I mean moral peace. I do not mean to say that in the event that independence is not granted war or revolution would follow, but there would be no sympathy, no friendliness between the peoples. We should not desire free trade with the United States if the independence of our country were established. We should require revenues to support our government, and we would find it necessary to raise them by custom duties. What we would wish would be a specially devised system of tariff duties between the countries making the rates as low as practicable, and to the mutual advantages of both countries."

MUST RESIGN.

MR. JOE POTTER, WHO IS A CANDIDATE, CANNOT BE COUNTY CHAIRMAN.

Mr. Joe E. Potter, chairman of the Democratic county committee, is to resign. He is a candidate for councilman in the First ward, which renders him ineligible to hold the chairmanship.

"I suppose I shall send in my resignation at once to State Chairman Allie E. Young," he said to a reporter this morning.

"There will be practically nothing for the committee to do for a year or more, anyhow, so the chairmanship is of no importance, and the only reason I presided yesterday was because there was no way to resign and have another chairman appointed in time for the meeting."

As a result of Mr. Potter's candidacy the legality of his appointment yesterday of Mr. Jesse Young to be the nominee of the Democratic party for magistrate in the Seventh district in place of Squire J. H. Little, deceased, is questioned.

NOT YET BURIED.

REMAINS OF A KENTUCKY BOY STILL AT A COLORADO UNDERTAKER'S.

Mr. Will Dicke, the tailor, received a letter today from Florence, Colorado, stating that the remains of Rufus Hall, the young man of near Cunningham, Trigg county, Ky., who died there over a month ago, are still being held by an undertaker, there being no funds to pay the funeral expenses.

The young man is well known here, having formerly been a clerk at Lee Schwab's. His father who was notified of the death, is said to be in good circumstances. Unless his relatives send the money for burial he will be given a pauper's funeral.

MR. J. O. JONES ASSIGNS.

BROAD STREET GROCER TURNS OVER HIS STOCK TO CREDITORS.

Mr. J. O. Jones, the Broad street grocer, filed a deed of assignment in the county clerk's office late yesterday afternoon, Mr. J. K. Bondurant being named as assignee.

He has been in business five or six years, and his assets will probably amount to \$6,000. His liabilities are not known, but Mr. Jones thinks he will be able to pay dollar for dollar.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

The City of Golconda will be let off the docks this evening with a better hull under her than when first built. Captain Bauer says he will be ready to enter the Paducah and Golconda trade next Monday.

The Lulu Warren with a large party of business men from South Bend, Ind., leaves here today in charge of General Manager Millhouse, of the Tennessee River Transportation and Trading Co. It does seem the general manager could have secured a better boat for such a trip.

The Clyde departed for Tennessee river at 8 o'clock last evening.

The City of Memphis from Memphis passed up this morning for Cincinnati. Arrived at 10 o'clock and departed at 11 o'clock.

The City of Memphis has laid over at St. Louis until next Saturday at 5 p. m.

The John S. Hopkins pranced gallily into port this morning with good business and departed on return trip shortly after arrival.

The Joe Fowler will take the Old Fellows to Mound City tomorrow.

The traveling public misses their old favorite, the Dick Fowler, greatly in the Paducah and Cairo packet daily trade since she was forced into retirement by a broken shaft. There is a wide difference in taking a 90 mile run via rail to reach Cairo instead of a straight shoot by river on a railroad speed packet like the Dick Fowler. If you doubt it, try it.

Business was fairly good today in river circles. No rush by any means.

Dogtown will soon have jack screws applied to elevate the city. Mayor Joe Waggoner says the council of Dogtown will meet in called session this evening relative to the situation.

The elegant new sidewheel steamer Morning Star is nearly completed and by the tenth of next month the music of her wheels will be heard playing with the waters of the Ohio with quick time music.

There are already many farms in the lowlands of the Ohio under water. The Ohio is a great stream for getting fall. She is either full of water, full of ice or full of sandbars.

As yet the Chattanooga merchants have not secured another boat to run with the Avon.

The towboat Charles Brown is another boat to meet with a disaster at the Henderson bridge in the last three or four days. We say dam the rivers or else "damn" the railroad bridge. The latter would be preferable.

The Tennessee is due tonight from Tennessee river and no doubt will bring out a big tip.
